**Worn sports gear:
the raw material for
tomorrow's product.**

About

CIRCULR. is the Dutch sports label with a clear goal: to transform the sports industry into a circular system. We upcycle waste from the sports world into new, functional, and sporty products. We collaborate closely with recyclers, producers, sports clubs and brands to make this process possible. Through ClubHub, our nationwide collection system at sports clubs, we gather used sportswear and training gear

to transform them into raw materials for new, circular products. This B2B catalog presents a selection of sustainable products from the CIRCULR. label, as well as from our partner brands. Perfect for sports events, vitality programs or as sponsorship items. The CIRCULR. & Friends collection offers a practical and sporty solution for businesses committed to sustainability. Enjoy!

**Circular design, recycled
and customizable,
for almost any sport!**
